Experience

Full-Stack Developer Intern Sep 2026 – Present
aamra infotainment, Dhaka

- Develop features and fix bugs in production web apps across React/Next.js front ends and Laravel back ends.
- Trace issues through an existing team codebase, from the UI down to the API and database, and ship tested fixes.

Projects

Prism - Real-time Whiteboard Where AI Agents Draw With You

- Created a collaborative whiteboard where AI agents (Claude Code, Codex) join over MCP to sketch screens and diagrams.
- Engineered the drawing engine from scratch in React and SVG, with connectors, snapping, undo/redo and PDF export.
- Synced boards live over Socket.IO with presence and cursors, through one shared write path for people and agents.
- Exposed 26 MCP tools for design-to-code; secured with OAuth 2.1, per-user rate limits and SSRF protection.

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express, Socket.IO, MCP, PostgreSQL, Prisma, Zod.

AI Bridge - Local Proxy & Dashboard for AI Coding Tools

- Developed a proxy linking AI coding tools (Claude Code, Cline, Kilo Code) to Anthropic, OpenAI and Copilot.
- Translated Anthropic and OpenAI API formats on the fly, with key rotation on rate limits and provider failover.
- Reduced token usage by trimming oversized prompts, summarizing long chats and caching repeat responses.
- Shipped a real-time dashboard for requests, tokens, latency and errors, with a live feed over Socket.IO.

Tech Stack: Node.js, Express, Socket.IO, MongoDB, Passport.js, React, Tailwind CSS, TanStack Query, Recharts.
